1. The following is an examiner's statement of reasons for allowance: the amendment filed 11/26/2004 has overcome the technical deficiencies and the prior art of record. The prior art of record fails to teach or fairly suggest said latch device of a first one of said latch stages, as seen from said output line device, having a feedback loop for data buffering, and said multiplexer of said first one of said latch stages being associated with said feedback loop and being configured such that the output data on said output line device are kept stable as called for in claim 1. Therefore, claims 1-20 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
